

Procurement Policy Aluminium Dunkerque

Our Commitments

- Select suppliers in accordance with our health, safety, quality, environment, and energy requirements, assess their performance, and support their development.
- Promote and share good practices.

- Support the development of local and competitive sources according to our strategy on sustainability.
- Focus on long term relationship and mutual collaboration with the suppliers

- Engage with proposals for innovative products and services and promoting them within our organization.
- Remain attentive and responsive to ideas for improvement from our suppliers.

- Prohibit all forms of corruption and conflicts of interest.
- Promote amicable solutions for the resolution of disputes.

Our Requirements

- Request suppliers to commit to a culture of health and safety, and risk prevention.
- Respect the rules, report events and incidents.

- Demand competitive products and services, in accordance with our quality requirements and specifications.
- Respect environmental obligations and requirements and engage in a process of waste recycling, reduction of greenhouse gases and energy saving.

- Be proactive to efforts of continuous performance improvement.
- Analyze, inform and manage risks during changes.
- Respond to requests for analytical explanations and remediation plans related to any non-compliance.

- Respect all labor laws and regulations.
- Share our values of honesty, openness, autonomy, responsibility and respect.
